THE FASHION – THE HOUSE

Based on the beloved television show, **DOWNTON ABBEY: THE EXHIBITION** takes guests to post-Edwardian England, where the characters and the iconic house come to life. “Visitors will be transported on an incredible journey through the grand home of Downton Abbey as the exhibition peers into the world of the Crawleys and those that served them below stairs,” according to press notes.

The exhibit offers a look into the captivating social history, culture and some of the most unforgettable moments, sets and costumes from the show’s six-season run.
